If you have any issues on match night

1 Need a hand?

If technology is not your strong point, hand the scoring over to someone else. Anyone can use the system.

2 Check before you confirm

Always double-check that you have selected the right player and the correct frame winner.

3 Made a mistake? Don't panic.

At the end of your match, message Steve with the teams, frame number and what needs correcting. He will fix it later that evening or the following day.

4 Connection trouble?

MNL uses very little data. If your signal is causing problems, try another phone, tablet or laptop with a stronger connection.
